Qualifications

- Dedicated and hardworking
- Willing to render overtime
- Willing to learn

AC KHYRINE B. CERSENIA

I am a 4th-year IT student who loves figuring out how programs work. I have knowledge of database management and programming languages like HTML and CSS, PHP, Dart, Python and others. I've completed a lot of IT projects for subject requirements. Teamwork is my thing, and I'm always up for solving problems and learning new things. I am eager to build a professional career by working with motivated and dedicated people in a very competitive and structured organizational environment.
